

ECOLAB PREMIUM DISHWASHER TEMP LABELS

Ecolab Premium Dishwasher Labels are self-adhering, waterproof, color-changing labels that measure the surface temperature of dishware in dish washing machines. When affixed to a dish surface they indicate whether or not the proper sanitation temperature has been reached.

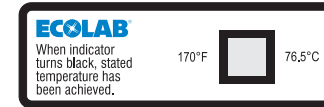

- ▲ Label removes easily and leaves no residue
- ▲ Irreversible color change once temperature has been reached
- ▲ Accuracy +/- 2°F

Apply the label to the thickest dish or utensil to be washed. Ensure that the contact area is clean and dry.

Place labeled dish/utensil in dishwasher and run dishwasher.

Read label - Label should turn from silver to black when surface temperature reaches rated temperature.

Remove label and attach to dishwasher documentation.
